Education

Indian Institute of Information Technology, Kottayam

Bachelor of Technology - Computer Science and Engineering

Aug 2023 - May 2027

Kottayam, India

Lal Bahadur Shastri School, Kota

Intermediate – CBSE Board (Percentage – 85)

Apr 2021-Apr 2023

Kota, India

Technical Skills

Languages: C++, Python, JavaScript, Dart

DataBases: MongoDB, PostgreSQL

Tools: Git/GitHub, Postman, Linux, Figma, VS Code, Canva

Frameworks/Libraries: Flutter, React.js, Node.js, Express.js, Tailwind CSS,

Academic Courses: Data Structures, Computer Networks

Experience

Denvak

Flutter Developer

December 2023 - Present

Bangalore, Remote

I developed a comprehensive dental clinic management app that streamlines clinic operations and enhances patient care. Key features include:

- Appointment Scheduling: Intuitive interface for seamless patient bookings and management.
- Doctor Management: Tools for administrators to manage doctor profiles, availability, and schedules.
- Dynamic Dashboard: Real-time metrics highlighting appointments and patient progress.
- Diagnosis/Treatment Module: A workflow enabling doctors to complete patient diagnoses and treatment plans in under 10 minutes, boosting efficiency.

Projects

Acadix | Flutter, Firebase | [GitHub](#)

4

- Developed a platform for students to participate in live study sessions and collaborate with peers.
- Integrated Firebase for real-time data synchronization, authentication, and session management.

Genome Data analysis platform | [GitHub](#)

- Designed and implemented an interactive web platform for analyzing and visualizing genomic datasets.
- Included advanced filtering, statistical analysis tools, and visual dashboards to aid researchers in understanding complex data.

4

Achievements

- Achieved CodeChef rating of 1520, demonstrating strong problem-solving skills and consistent performance.
- Solved **200+ coding problems** across platforms like Leetcode, GeeksforGeeks and codeforces
